Using the power of astrology to light a fire within

Stephanie Johnson believes in the power of astrology to assist in self-acceptance, to guide in the process of timing decisions and actions and to aid in the ability to listen to the still voice within - the one that is so often drowned out by the strident noise of other people's expectations and society's impositions.

"As a working astrologer I have seen the light that goes on in people's eyes when their passion for life is lit."

"As a working astrologer I have seen the light that goes on in people's eyes when their passion for life is lit. It is the most gratifying experience and one that motivates me further to continue using astrology to help light a fire within all of my clients.

Astrology is an amazing journey, a powerful catalyst.

Thank you for taking the time to learn about my journey.

May your passions be truly burning"

– Stephanie Johnson

The Essential Dignities are the building blocks of medieval and classical astrology, and therefore an ideal starting point for gaining an insight into medieval astrology. This article explores the fascinating system of Lunar Mansions; this has lost some of its significance through the years, and many modern astrologers may not even be aware of its existence. This article is a result of personal exploration of the Arab's Lunar Mansion system, with an emphasis on its possible application to Natal astrology.

CLASSICAL ASTROLOGERS NAME THE THIRD HOUSE AS THE GODDESS HOUSE

REVIEWS BY STEPHANIE

Parky, the One Man Show:

“This is a walk down memory lane for Parky himself, but it is also a testament to a man and his self-deprecating style of humour that disarmed his guests and continues to beguile his audience.”
